

IEP Series

*Radiant heat at the **push of a button***

Short-wave infrared technology provides instant comfort heat as soon as it is switched on. Models are available for indoor and outdoor spot and space heating applications. These electric heaters are solidly built, with polished aluminum reflectors, quartz lamps and stainless steel wire guards.

Short-wave technology versus medium-wave:

- Provides twice the heat vs. traditional electric heaters
- 1500 watt models approved for residential use

Spot or space heating for indoor applications

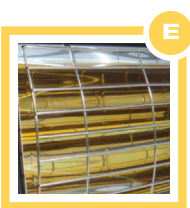

Weather Proof

Power range from 1.5 to 6 kW

Polished aluminum reflector & quartz lamps

Stainless Steel wire guards

Model	Application	Voltage	Power (Watts)	Amps	Dimensions WxHxD	Weight Lbs.
IEP-1520	Indoor	120	1,500	13	15.6"x5.7"x4.4"	5.1
IEP-1524	Indoor/Outdoor	120	1,500	13	18.6"x5.7"x4.4"	5.45
IEP-2024	Indoor/Outdoor	240	2,000	9	18.6"x5.7"x4.4"	5.85
IEP-4024	Indoor/Outdoor	240	4,000	18	38.5"x5.7"x4.4"	8.95
IEP-6024	Indoor/Outdoor	240	6,000	26	50.8"x5.7"x4.4"	13.2
