Model	Cabinet Length [ft]	Volts	Phase	FLA	Max air speed [ft/m]		Air volume [cfm]		Noise [dB]		Net weight [lbs]
					High	Low	High	Low	High	Low	
1003	3	110/120	1	2.7	3150	2500	647	530	52	49	35.2
1004	4	110/120	1	3.5	3150	2500	883	706	53	50	39.7
1006	6	110/120	1	5.25	3150	2500	1340	1060	57	55	57.2

## Benefits of Infrasave Air Curtains

## How Infrasave Air Curtains Work

Infrasave Air Curtains create an effective seal by re-circulating the facility air in a smooth laminar flow across an open doorway. This creates up to a 90% air seal, like a waterfall, that prevents leakage of air between two areas with different pressure and climate. The more laminar this air flow, the harder it is for outside air, insects, or dust to penetrate the air curtain.
